SOKANU (15 pts)
Must complete by February 13 at 11:59pm

I completed this assignment on: ..................................................

Sokanu (https://nevada.sokanu.com/) is an online tool to help you find your passion and what you are good at. Answer questions regardless of education, experience and motivation. Simply complete the assessment by selecting what you like to do and what works with your style of work.

**Step 1:**
Once you log in you will begin the assessment

**Step 2:**
When done with the first 44 questions, click on “Dashboard” and select “Take the Career Test”. You will begin ranking items on the site.

**Step 3:**
Select “All Careers” on the left hand side to display your matches.

Print a copy of your top careers with the date and time included and submit it with your Action Plan. If the date and time is not included in your Action Plan you will receive zero points for the assessment.

Once on the main screen in Sokanu press the print screen button (PrtScn) on your keyboard. Open a Word document, paste by going to the Home tab and clicking Paste, or by pressing Ctrl and V together. Put the sheet in Landscape orientation and print the document.

Make sure that date and time are clearly identifiable. You will lose points for not date and time.
